

REMARKS

The above-referenced amendment to the specification is made solely to insert a paragraph describing federally sponsored research used in support of the present invention. The statement was left out inadvertently due to a clerical oversight and without any intent to deceive. Furthermore, the amendment to the specification is made for the sake of clarity only and does not introduce any new matter.

Entry of the above amendment is respectfully requested. The Examiner is kindly invited to contact the undersigned at (858) 200-0587 with any questions regarding the present application.

Respectfully submitted,

Date: August 24, 2006

David M. Kohn, J.D.
